

"Alpie do I really have to wear them to bed I'm potty trained thought!" Complained Provee.

"Yes, even though you have been potty trained you still tend to have accidents in the night to so need to wear these for protection" said Alpie

Provee just crossed his arms as the sylveon reassured him with a pat on the head. Provee of course still not quite approving of the idea but it was becoming a hassle to clean the bed sheets every time.

"Hey guys what are you doing?!" Shouted provia from across the room as she slowly walked up to provee and alpie with a crinkle in her step.

"Oh nothing much just suggesting an idea to help porvee's bedwetting problem so I bought some pull ups for him and of course some more diapers for us!" She exclaimed alpie takes the packages of padding out of the plastic bag rustling with each diaper or pull up packages taken out of the bag. A package of 'SoftNites' pull ups the packages themselves are dark blue kinda representing nighttime sprinkled with moons and stars. On the middle of the packages shows a little eevee sleeping sporting the pull ups.

'PokePawpers overnites' the was a darker pink the packages also had moons and stars sprinkled across the packages but this time with a sleeping pichu wearing one of the diapers.

'Sylvies' the diaper packages were completely pink decorated with hearts, stars, bows that look like the one that Sylveon has and of course a Sylveon wearing one of the thick pink diapers she is sporting for.

Alpie tears open the package of SoftNites grabbing the poofy pull up with her ribbon "provee would you like to try on one of these pull ups?" She teased him waving the pull up in his face as the baby powder scent filled his nostrils. A blush reddens his face he nods then alpie use one of her ribbons lifting the eevee slightly in air, she opened the pull up sliding it on him nice and snug. "There comfy?" She asked provee nods. She smile satisfied with her easy handy work alpie uses another one of her ribbons inspecting provia's diaper.

Provee looked down at his pull up; it was dark blue with stars around the middle of the pull up. An image of a shinx could be visible on the waistband also wearing one of the pull ups. Provee looked back at the duo provia was laying down while alpie was changing her. Her diapers were pink with paw prints that faded in the middle like provee's pull ups complete with a skitty on the waistband. Audible hiss could be heard alpie looked at her diaper as she was soaking it to the brim.

"Can I change you alpie?" Asked provia she stood there blushing with a little smile

"Sure you can give me a hand!" She exclaimed provia rushes to the sylveon untapping her soaked diaper. She tears open the package of sylvies taking out the super thick pink diaper placing it by the sylveon. Provia does her best removing the soaked diaper alpie helps her using

her ribbons balling up the diaper. Provia grabs a wet wipe gently cleaning her and Applying some baby powder. Alpie place the thick diaper under her and sliding her tail in the tailhole while provia bring the diaper up to her tummy and alpie holds in place. Provia takes one of the wings folding over the waistband applying the stick tape on the landing zone while doing the same to the other.

"Not bad, you did pretty well for your first time!" She encouraged, provia gives a little giggle and hug

"You have a cute little Audino on your diaper!" Exclaimed provia

"Yes it is rather cute isn't it!" Alpie waddles out to the kitchen to make some grub. She looks through the cupboards but only to find them either bare or nothing much to make.

"Kids I'm going to run to the store. I need to grab a few more things we need!"

"Ok me and provee will be here!" Shouted provia

"Ok I should be back in about an hour or two and please just stay out of trouble" alpie leaves without another word

The duo lay on the couch bored out of their minds of what to do. only 15 minutes have passed since alpie left.

"Hey would you like to play a game with me?" Asked provia

"Sure what's this game going to be about?" Asked proved tilting his head

"The game is about how many diapers we can wear at once!" She says as she grabs her package of diaper grabbing a secondary diaper and taping it to her. "Come on silly you're already losing!" Pressured provia

Provee grabs another pull up slipping it on him and other and other. They race each other for a few minutes feeling their legs spread farther apart. They did this for around 20 minutes finishing both packages of diapers.

The door creaks as alpie enters the house with groceries. "What are you two doing?" Asked alpie

"Uhhh provia wanted to play a game since we were bored and this was her idea" said proved quickly and shaky

"Well at least you had something to preoccupy yourselves whilst I was gone, hey I also have a surprise for you two!" She says as she puts the groceries away in the fridge and cupboards.

"A surprise what's it?!" Provia wags her tail vigorously

"You'll see, come on over little one!" She shouts a vulpix walks up to alpie smiling "meet pixy I found her all alone and decide to adopt her so she is going to be you little sister!" Alpie exclaimed

Provia and alpie smile as they pet and play with their new playmate. Alpie grabs a diaper from a different package called pokepawpers swaddlers the diaper is pink with a diapered vulpix sporting the brand she giggles as the baby powder tickles her. Alpie takes out an array of items such as blocks, rattles for the vulpix to play with provia and provee join in on the fun if course.

"While you three play I'll make you some dinner" alpie grabs some berries blending them up in the blender pouring in into a baby bottle. She cooks some of the berries for the eevees with a glass of milk for both of them. "Kids time for dinner!" She calls

The duo rush to the dinner table, alpie using her ribbon to pick up the little vulpix placing the nipple in her muzzle as she suckles away at the berry juice. Provee and provia dig into their meals enjoying every bit of it. They give a satisfied sigh clearing their plates, provee stretches and yawns quietly.

"I think it's time to get ready for bed but first we should take off those extra diapers off you two." She points out, she lets down the little vulpix quickly working on provia undoing the tapes on her diapers and folding neatly, placing them on a nearby changing table. "Ok you turn!" She slid the pull ups off to provee revealing a soaked inner pull up.

"Oh it seems you have a few daytime accidents as well, here I'll change you" she puts him on the changing table tearing the sides of the pull ups tossing it in a diaper pail by the table. She cleans him with a wet wipe he shivers as the cold wet feeling touches his skin. Applying powder and a new pull up he was now ready for bed. The pull up had an alolan vulpix on the waistband. Alpie checks her diaper seeming it needs to be changed, she quickly changes herself making sure she is clean. She puts on a fresh diaper with a zorua on the front.

Alpie ushers the little ones to brush their teeth. Alpie carries the sleepy little eevees and vulpix to their room and lays they down in their respective beds.

"Hey alpie can you maybe add another pull up on me just in case please?" Provee asked

"Sure I can do that!" She walked out the room grabbing some diapers and an extra pull up. She opens up the pull up sliding it over the first pull up this one had a vulpix on it.

"While I'm here I might as well see if anyone needs a change" she opens the back of both provia and pixy's diaper noticing they are quite wet. She lays them down quickly working on undoing the tapes and throwing the diapers away whilst applying baby powder to both of them.

She moves the diapers to their tummy and snugly taps them closed. She gently grabs pixy slipping her hind paws into a pair of footie pajamas along with her front paws and closing it up with the zipper in the back. The pj's have a common theme of eevee all around them. She tucks them in kissing their cheeks. "Goodnight my little ones sleep well I'll check on you in the morning!" She keeps the door open just a crack allowing light to flow in as the three sleep soundly.

Provee awoke from his long slumber he sit up with a squishing sound he looks down notice he had soak through both of his pull ups he steps off of his bed tearing the sides of both of them throwing them in a nearby diaper pail, he cleans himself and slides on a fresh new pull up. He walked up to his sister's bed squishing her diaper which seemed to be wet as well. He grabs a fresh diaper, unfolding it and placing it under her. He does the tapes tossing the old diaper out, cleans her with a wet wipe with some baby powder and snugly taping the diaper. This one has two little diapered skittys on the waistband.
