

A curious and diapered vaporeon wanders around a field. She loves to explore new places or just get out into the wild every once and awhile. She squinted her eyes, noticing something odd. She gets closer to the object to see it's a giant diaper laying in the grass. She presses her paw in the middle of the diaper, watching it compress then reform back to its original state. She steps into the diaper, it crinkles with each footstep. She spins a couple of times, fluffing the diaper up before laying down into it. She smiles as the soft diaper wraps around her... wait wrapped around her

Vaporeon feels a sudden force keeping her. The diaper clamps on her around her body as she feels it absorb her inside of the diaper. The diaper reopens as it reveals a face on the front of it. The vaporeon's face keeps a shocked expression. A jolteon hears a little bit of the commotion and sees the giant diaper. She notices the face on the front of it, she gasps as the diaper grabs her and tosses her into the air. She squeaks as the diaper begins to absorb her. She tries to fight back but the plush material the diaper seems to be made of just absorbs her more. The jolteon's face then appears next to the vaporeon's with a terrified look.

A nearby flareon saw what happened to her friend. She books it, running away as fast as she can. Her diaper hinders her a little bit. The grabs her leg with one of its tapes and begins to force her into it absorbing her in the process.

The diaper sneaks up on a couple of other eeveelutions. The diaper opens fully trapping the espeon in its grasp. Umbreon begins biting at the leg guards of the diaper in an attempt to free her friend. The diaper bellows baby powder into umbreon's eyes temporarily blinding her. The diaper grabs the espeon with one of its wings quickly absorbing her before her friend could save her. Umbreon scratches her eyes eliminating the baby powder of her eyes. But her fate has already been decided. The diaper grabbed her and slammed her to the ground rendering her unconscious. The diaper lays itself flat, grabbing the umbreon and dropping her into its 'maw' absorbing her.

In a grassy field a sleeping Leafeon lays in her diaper peacefully asleep. The diaper sneaks up on her jumping on top of her wrapping her inside of the diaper absorbing her.

A nearby glaceon rushes the diaper trying to help out. The diaper pins her down with its tapes as it pushes its back end to trap her under itself. The diaper taunts her as it slowly encases her then quickly absorbs her.

Sylveon pants breathing heavily she hides behind a tree as her friends slowly disappear. She tries to help but she knows the diaper is just too strong and fast. She gasps as the diaper appears behind her. The diaper uses its wing grabbing her wrist, the diaper uses the other wing grabbing her diaper front teasing her as it squishes the sylveon's diaper. Then absorbing her into it. The diaper seemed satisfied and shrinking down to a normal sized diaper.

"Ohh what's this?" Asked an eevee she picks up the diaper looking at all the eeveelution faces on it. She lays down and puts the diaper over her crotch and taping it shut.

"Ooh such cute little designs on it" the eevee waddles back home watching a little bit of tv then He falls asleep.

Hours pass by as he feels himself going. He looks down as he watches as the flareon starts to fade away.

"Ohh fade away designs nice let's see how much this diaper can hold." He drinks tons of water as a couple minutes pass as the jolteon and vaporeon fade away.

"Stop, I don't wanna fade away!" Shout a mysterious voice

"Who said that!" Shouted the eevee

"Me behind you on your diaper" said the voice

The eevee looks at the back of his diaper seeing the glaceon, Leafeon, umbreon and espeon 'designs' on his diaper.

"Whoa you can talk?!" Asked eevee

"Of course we can we used to be Pokemon and now we're trapped inside this stupid diaper that absorbed us" said the glaceon

"Well you're now part of my diaper now" he said as he continued to use the diaper. Both umbreon and espeon fade as the diaper gets bigger between his thighs.

"This diaper can really absorb a lot," he said, drinking more and more water.

Hours pass as he finally awaits for the next wetting he lets go as the diaper absorbs all of it and the glaceon then disappears.

"I think that's all of them" he said confidently

"No it's not" said another voice

"Huh?" He looks down seeing a sylveon of the front of his diaper

"Ooh you still made it" ge said

"Yup and so far this diaper holds a lot and I don't mind" said the sylveon

Eevee let's go more as the sylveon slowly fades but only a couple if her ribbons fade first.

"This diaper is very squishy" he giggled as he squished the diaper.

He drinks more water hoping to make the sylveon fade away. He relaxes as he sees her fade away.

"Bye bye sylveon" he said

Waddles around as he takes the diaper off. He was about to throw it away as the diaper wiggled and moved. He watched as the diaper became dry and spit out the eeveelutions but now they have turned into diaper critters.

"Whoa you guys look so cool" said eevee

"Well at least we're free but now we're different" said vaporeon

"Hehe it looks like you guys are wear a very thick diapers" said eevee

They look at their rears seeing they do look like they are wearing a diaper but it's a part of them.

"Hmm your turn!" Say sylveon as she grabs the old diaper and retapes it on him as eats him.

"Sylveon, why did you do that?!" Asked jolteon

"You'll see" she said as she opened her belly tape seeing the eevee had also turned into a diaper critter. She takes him out and tapes her belly back up.

"There now your like us" said sylveon as she pets the eevee

The eevee pouts and crosses his paws as his diaper body crinkles loudly. The eeveelutions laugh and smile as they now have fun with their new abilities.
