

My services are currently open and I am in need of money. I have story commissions open, YCH commissions open, and custom backstories open. I also have trades available too, yet in exchange, writing is all I can do.

As for my custom backstories, these are to help with character creation and development, so these are all pre-written. You can add more to the backstory or eliminate some information, all to suit your character that you are developing or updating. Please consider; comment below or send me a note if interested!
