

Notice

- By commissioning me, you are liable to my terms of service and are showing me that you have read and agree to the terms set. Be aware that my ToS is subject to change at any moment.
- I am a college student so I won't be opening up for commissions as frequently or as consistently as some other artists do, so please bear in mind if there are ever any delays during the commissions as well.

General Guidelines

- I do not do same day or next commissions
- I reserve the right to deny any commission for any reason, and I will provide the reason to you if that happens
- You must have a digital reference sheet ready to provide upon applying for a slot
- I also require an email to send you the finished artwork once it is done
- I will also update you on each phase of the commission
- I will show one sketch of your commission to you and ask if you want anything changed before beginning the linework. Any changes won't be charged an extra fee during this phase of the commission
- Failure to comply with these ToS will lead to blacklisting from any future commissions

Pricing

- Prices are as stated on spreadsheets and can be subject to change according to my needs and abilities

Payment and Refunds

- Commissions must be paid 100% upfront before I start the commission
- I won't start on your commission until you have paid for what you want to be commissioned within 2 days or else you're slot will be given to someone else
- PayPal Only. No E-checks
- If there is ever any personal issue keeping ME from finishing your commission, I will give a full refund and the progress I have made on the piece
- If YOU decide to cancel your commission once I'm past the sketch phase, you will receive only a partial refund and the sketch will be used for YCHs or personal art
- Finished commissions will not be refunded
