

Project One

By Mick Lennon

April 14, 2021

Damien Racer is sitting behind the wheel of his Acura NSX. Right next to him is a guy (an anthropomorphic German shepherd wearing a blue cardigan and green cargo pants) sitting behind the wheel of a white 2019 Honda Civic Type R. Alice walks up to Damien.

"Are you ready to race this guy?" Alice asked.

"You know me, Alice. I'm always ready! I know that Civic also has performance modifications, but you know I can take him," Damien replied.

"That's what I like to hear! Now good luck!" said Alice.

"Thanks," Damien replied.

"You're welcome," said Alice before getting back on the sidewalk with the rest of the team.

Priscilla walks up and stands between both cars.

"Alright, we got an Acura racing against a Honda today, and I know you guys are ready to race!" said Priscilla.

"Damn right!" said Damien before revving the engine of his NSX.

The Honda driver revs back at him.

"10, 9, 8, 7, 6, 5, 4, 3, 2, 1, go!" said Priscilla before bringing out her Glock 18 and firing a round into the air.

Damien and the Honda driver launch out of the starting line. Damien shifts into second, third, fourth, and fifth gear before making a hard left. The Honda driver shifts into second, third, and fourth gear before making the same maneuver.

"So what's under the hood of that Civic?" Pandora asked.

"That car is powered by a 2 liter turbocharged i-VTEC straight-4. However, that one has been modified to produce 600 horsepower and 560 pound-feet of torque. The transmission is still the same 6-speed manual that it left the factory with," Eleanor replied.

"How fast can it go?" Fraser asked.

"With those mods, that car can do 0-60 mph in 3.1 seconds and tops out at 213 mph. And yet, those numbers are nothing compared to Damien's NSX. Granted Acura is owned by Honda," Kang replied.

"Wasn't that Civic Type R built in England?" Chester asked.

"It was actually built in Swindon to be exact. Damien's NSX was built over in Ohio, even though the Honda version was built in Japan," Gavin replied.

"Let's hope Damien can beat this guy," said Tony.

"He has a very high chance of winning since that NSX is overpowered compared to that Civic," Charlie replied.

Damien shifts into sixth, seventh, eighth, and ninth gear before making a hard right. The Honda driver shifts into fifth and sixth gear before making the same maneuver.

"Dammit, it's hard to drift in this thing!" the Honda driver said to himself.

Both drivers near miss a 2027 Mercedes-Benz G65, a 2039 Buick Enclave, a 2021 Chevy Tahoe, and a Porsche Taycan. They drift around a corner and speed through a

busy intersection, causing a 2036 Chevy Suburban to t-bone a 2022 BMW M4. Damien crosses the finish line first with the Honda driver crossing it four seconds later. Both drivers exit their cars and approach each other.

"You really know how to handle that NSX out there," said the Honda driver.

"Thanks, and you were really burning some rubber with that Civic," Damien replied.

"Yeah, it's very difficult to drift with a front-wheel drive car," said the Honda driver.

"Now you can see why most drift cars are rear-wheel drive; some come from the factory like that, others are converted to have rear-wheel drive," Damien replied.

"That makes sense, now here's your reward," said the Honda driver as he gave Damien a check for \$10,000.

"Thanks, and maybe we'll meet again someday," Damien replied as he put the check in his pocket.

"Yeah, and I'm gonna get some more mods for my Civic in the meantime," said the Honda driver before getting back in his car and driving away.

Damien's phone rings.

"Hello?" Damien asked after bringing out his phone and answering it.

"Hello, Damien. It's Ray. There's a job coming up. The Big 3 are with me, and they drafted two ladies who are interested in joining your team despite the fact that these two are not official members of the Nazi Hunters. Get over here ASAP," Ray replied over the phone.

"We'll be there in a few minutes. We are a couple blocks away after all," said Damien before hanging up and putting his phone away. "Ray just called. He said that there are two women who are interested in joining our team, and that there's a job coming up."

"Then let's get the hell out of here," Darrell replied.

"I'm interested in meeting those two women, whoever they are," said Atticus.

"I doubt that they're your type," Riley replied.

"I wasn't gonna hit on them. Instead, I just wanna be friends with them," said Atticus.

"Figures, now let's go!" Damien replied.

The Blacklist get in their cars and head out. They soon arrive at Ray's mansion, park their cars in the garage, and exit their cars. They walk past Karl's Ford Gran Torino, a red 2020 Ferrari SF90 Stradale, and a light green 2022 McLaren Artura.

"I see that the new team members have a good taste in cars," said Sean as he noticed the cars.

"I agree, and those are some nice cars," Eddie replied.

"I'm looking forward to meeting the new team members," said Marilyn.

The Blacklist enter the planning room and are greeted by Ray and The Big 3.

"Hello, everyone. I see that you're all here," said Ray.

"Yeah, so who are the new team members?" Damien asked.

"Isn't Karl gonna introduce them?" Burton asked.

"He will do just that," Ray replied.

"Gabriella O'Connor and Donita Alvarez, you can come in," said Karl.

Gabriella (an anthropomorphic falcon wearing a white cardigan and blue jeans) and Donita (a blue anthropomorphic fox with long, blonde hair and wearing a maroon armored shirt and grey combat pants) enter the room.

"Hello, everyone! My name is Gabriella O'Connor, daughter of Leonard & Rachel O'Connor. You may know about my dad being a music producer for Angels of Death

while my mom is actually their tour manager. Also, I am aware that you've seen my Ferrari SF90 Stradale over in the garage," said Gabriella.

"And my name is Donita Alvarez, daughter of Penelope Alvarez & Jason Tanner. I'm sure you're all aware that my mom is the lead guitarist for United States of Anarchy. Meanwhile, my dad is a producer for The Karen Fisher Project. I see that you've all noticed my McLaren Artura in the garage," said Donita.

"Ray had us read all of your files in case you didn't know," said Gabriella.

"Hello, my name is Damien Racer. Of course, you already knew that," said Damien as he walked up to Gabriella and Donita.

"We were aware of that, and you are a total badass!" Donita replied.

"I'm Atticus Anderson, and I've been wanting to meet the two of you!" said Atticus as he walked up to Gabriella and Donita.

"We know about you and that you've already been a ladies guy, even though you've never been accused of sexual harassment or any shit like that," Gabriella replied.

"Atticus has a history of flirting with women from what I've heard, even though he usually tries to be their friend," said Brendan.

"That's right," Atticus replied.

"He gets along pretty well with me, and he even wants me to be the rhythm guitarist for his punk band whenever he decides to start that up," said Mandy.

"Yeah, but isn't Rodney supposed to be in Denver for the filming of Rudolph's Revenge?" Donita asked.

"Yes, but we're taking a break right now. I'll be heading back to Denver in four days so we can resume filming. The reason why I'm taking a week off is so I can help you people. I am a member of the team after all," Rodney replied.

"That's understandable," said Gabriella.

"It's pretty unusual having an actor as a part of the team," said Krist.

"I have nothing against having an actor on the team nor do I have a problem with two more women joining us," Maynard replied.

"Right, and you are pretty cute," said Donita.

"Thank you, even though I'm dating Malakai," Maynard replied.

"That's right, and Maynard helped me move in with him," said Malakai.

"That's pretty cool," Gabriella replied.

"Gabriella, aren't you gonna tell us about your Ferrari?" Ruby asked.

"That car is powered by a 4 liter twin turbo F154CD V8 with three electric motors that put out a total of 986 horsepower and 885 pound-feet of torque. The transmission is an 8-speed dual-clutch transmission. It does 0-60 mph in 2.5 seconds and tops out at 211 mph," Gabriella replied.

"That's impressive, but what about that McLaren Artura?" Magra asked.

"My McLaren is powered by a 3 liter twin turbo M630 V6 with an electric motor that produce a total of 671 horsepower and 531 pound-feet of torque. The transmission is an 8-speed dual-clutch transmission. That car does 0-60 mph in 3 seconds and tops out at 205 mph," Donita replied.

"This makes you the most recent member of the team to drive a McLaren," said Charlie.

"That's right, and we're challenging Damien to a race," Donita replied.

"So who's gonna be your partner for this race?" Gabriella asked Damien.

"Kang, you're up!" said Damien.

"I'm with you!" Kang replied.

"Let's do this!" said Donita.

Damien, Kang, Gabriella, and Donita run to the garage, get in their cars, start them up, and drive up to a stoplight. The light turns green, and they all launch out of the starting line. Damien shifts into second, third, fourth, and fifth gear before making a hard right. Kang shifts into second, third, and fourth gear before following Damien. Gabriella shifts into second, third, and fourth gear before making the same maneuver. Donita shifts into second, third, fourth, and fifth gear before following Gabriella. They all near miss a 2017 BMW M2, a 2040 Mustang GT, a 2038 Lincoln Navigator, and a 2021 Mercedes-Benz G65 before drifting around a corner. Meanwhile, everyone else is watching the race on the screen.

"It's strange that Damien & Kang are driving cars that are four-wheel drive while Gabriella & Donita are driving cars that are rear-wheel drive," said Pandora.

"Those two ladies have some serious driving skills," said Burton.

"Apparently, the two of them attended a racing school to build up their racing skills,"

Eleanor replied.

"How do you know that?" Chelsea asked.

"The two of them said on Twitter that they graduated from FFR Cobra Los Angeles Racing School last year. I know this because Eleanor and I follow both of them," Becky replied as she showed Chelsea a selfie that Gabriella took with Donita in front of the school.

"Let's see who wins this race," Simeon.

Damien shifts into sixth, seventh, eighth, and ninth gear before making a hard left. Kang shifts into fourth, fifth, sixth, and seventh gear before following Damien. Gabriella shifts into fifth, sixth, seventh, and eighth gear before making the same maneuver. Donita shifts into sixth, seventh, and eighth gear before following Gabriella. All four racers speed through a busy intersection, causing a 2027 Jaguar F-Pace to t-bone a Tesla Model X. Damien crosses the finish line first with Kang crossing it second, Gabriella third, and Donita fourth. The four of them drive up to Ray's mansion, park their cars in the garage, exit their cars, and return to the planning room.

"Kang, do you ever take that Jaguar to car shows and car meets?" Donita asked.

"Occasionally, and I always bring Eleanor with me," Kang replied.

"Does anyone know that car is actually a prototype?" Gabriella asked.

"There are people who asked me if it's the real deal, and I always tell them that it's a replica that Eleanor and I built. The thing is only people who are affiliated with the Nazi Hunters and the NSRO know the truth about it," Kang replied.

"Although Kang is the smartest guy on the team, he's still a very skilled driver and a total badass in combat," said Damien.

"Now that that's over with, Ray is gonna go over today's heist," said Luke.

"Thank you," Ray replied before walking over to his computer. "Today, you will be going to Stuttgart to steal this 2022 Mercedes-AMG One."

Ray shows everyone photos of a silver Mercedes-AMG One.

"Of course, you people will have to evade the cops and possibly GSG 9 when making a getaway," said John.

"What the hell is GSG 9?" Gavin asked.

"It's Germany's police tactical unit. They were established in 1972 and are involved with both law enforcement and counter-terrorism. Essentially, they're the German equivalent of the SWAT Teams here in America," Andreas replied.

"Those of you who don't know, my mom was actually born in Stuttgart, though she grew up here in LA," said Darrell.

"That's cool. My mom told me that her parents are from Mexico, so this technically makes her Mexican-American even though she was born and raised here in Los Angeles," Donita replied.

"So does anyone know about the performance specs of the Mercedes-AMG One?" Fraser asked.

"I have researched that car and read that the engine is a 1.6 liter PU106C Hybrid E-turbo V6 with four electric motors that produce a total of 1,134 horsepower. The transmission is an 8-speed automated sequential. I know that some people online say that it's an automated manual, but it's NOT a true manual; it's an automated sequential. Anyways, that car does 0-62 mph in 2.2 seconds and has a top speed of 217 mph. Only 275 of those were built," Damien replied.

"So who is gonna be driving that car?" Karl asked.

"I'll be driving it," Donita replied.

"I'm gonna ride with you," Gabriella said to Donita.

"The two of you can ride with me," Atticus replied.

"Then it's settled! Good luck out there!" said Karl.

"Blacklist One is all fueled up," said Ray.

"Alright, now let's go get that car!" said Damien.

The Blacklist run to the garage and get into their vehicles before heading to the streets.

They soon arrive at the Los Angeles International Airport and pull up to Ray's hangar.

The cargo door of Blacklist One opens up, and The Blacklist drive their cars into the cargo bay. They exit the cars and walk to the cabin before sitting down and strapping themselves in. The cargo door closes up as the plane's crew secure the cars into place before sitting down and strapping themselves in. Rob Draiman and his co-pilot get seated.

"Next stop: Stuttgart," said Rob.

Blacklist One is taxied out of its hangar and onto the runway before taking off. The landing gear is retracted.

14 hours later.

Blacklist One arrives at the Stuttgart Airport. The landing gear is deployed, and the jet lands onto the runway. The jet is taxied into a hangar. The Blacklist stand up and walk to the cargo bay. They get into their cars as the cargo door opens up. They exit the cargo bay and head to the streets.

"Welcome to Stuttgart," said Damien.

"This is my first time visiting my mom's hometown," Darrell replied.

"Darrell, you know that we can't do any sightseeing, right?" Priscilla asked.

"Right, because we have a job to do," Darrell replied.

"Let's just focus on stealing that car and bringing it to LA," said Tony.

The Blacklist soon arrive outside of the dealer.

"The two of you are gonna need these," said Atticus as he gives earpieces to Gabriella and Donita.

"Thanks, and we'll be right back," Gabriella replied.

Gabriella and Donita exit Atticus' SUV and enter the dealer. A salesman (an anthropomorphic marble fox wearing a Mercedes-Benz dealer uniform) walks up to Gabriella and Donita.

"Hello, are you here to buy something?" the salesman asked in his German accent.

"Yeah, we're taking the AMG One for a test drive," Donita replied.

"Okay, here's the key," said the salesman as he gave her the key.

"Thank you," Donita replied before knocking out the salesman with a punch to the face.

Two more salesmen run up to her. She knees one in the abdomen before karate chopping his throat and knocking him out with a kick to the face. The other salesman runs up to Gabriella, who knees the guy in the abdomen before knocking him out with a double roundhouse kick to the face.

"Let's get the hell out of here!" said Donita.

"Right," Gabriella replied before the two of them get into the Mercedes-AMG One.

They close the doors and strap themselves in. Donita starts up the car and drives through the glass window before meeting up with the rest of the team.

"Let's go!" said Donita.

The Blacklist head to the streets. They speed past a cop driving a 2040 Porsche 911 Carrera. The cop activates his siren and starts pursuing The Blacklist. Several more

cops driving 2040 Porsche 911 Carreras, 2040 Audi Q8s, 2039 Mercedes-Benz S600s, and 2040 Volkswagen Golf GTIs engage in the pursuit.

"Dammit, it's the cops!" Darrell shouted.

"I've never been in a police chase before," Rodney replied.

"We'll deal with these assholes like how we normally do," Damien replied before releasing a spike strip, shredding the tires of a Carrera and causing it to crash into the rear of a Ferrari FF.

Kang fires an EMP at an S600, frying its system and causing it to crash into a light post.

Alice accelerates towards the rear left wheel of a Q8, causing it to roll over. Eleanor sideswipes a Golf GTI, causing it to hit a curb and roll over.

"Damn, these sirens are annoying," said Burton before firing an EMP at a Carrera, frying its system and causing it to t-bone a 2022 BMW M5.

Darrell sideswipes a Q8, causing it to hit a curb and roll over. Sean deploys a spike strip, shredding the tires of a Golf GTI and causing it to crash into the rear of a 2030 Toyota Hilux. Chester sideswipes an S600, causing it to crash into the rear of a 2022 Ford Focus RS. Marilyn fires an EMP at a Carrera, frying its system and causing it to crash into a light post. Eddie sideswipes a Golf GTI, causing it to t-bone a 2022 BMW M5. Tony sideswipes an S600, causing it to hit a curb and roll over. Charlie rear-ends a Carrera, causing it to lose control and crash into the rear of a 2025 Toyota Highlander. Priscilla deploys a spike strip, shredding the tires of a Q8 and causing it to roll over.

"I never thought I'd be involved with a heist in my home country," said Malakai before firing an EMP at a Carrera, frying its system and causing it to t-bone a 2021 BMW X5.

Krist sideswipes a Golf GTI, causing it to hit a curb and roll over. Andreas rear-ends a Carrera, causing it to lose control and t-bone a Tesla Model X.

"The cops in this country seem to be easier to deal with compared to those in America," said Magra before sideswiping a Golf GTI, causing it to collide head on with a Ferrari FF.

Pandora fires an EMP at a Carrera frying its system, causing it to hit a curb and roll over. Fraser deploys a spike strip, shredding the tires of a Q8 and causing it to collide head on with a 2034 Porsche Cayenne. Ruby sideswipes a Golf GTI, causing it to crash into the rear of a 2022 Kia Carnival. Gavin rear-ends a Carrera, causing it to t-bone a 2034 Maserati Levante. Chelsea accelerates towards the rear left wheel of a Q8, causing it to roll over. Becky fires an EMP at an S600, frying its system and causing it to collide head on with a Google Street View Car. Mandy deploys a spike strip, shredding the tires of a Golf GTI and causing it to crash into the rear of a 2035 Ford Bronco. A cop driving a Carrera pulls up next to the AMG One.

"Shit, there's a cop right to us!" said Gabriella.

"I'll handle it," Donita replied before pulling out her Glock 26 and shooting the tire off of the front right wheel, causing the car to roll over.

Atticus sideswipes a Golf GTI, causing it to crash into the rear of a 2033 Mustang GT.

"This is my first time taking down a cop car," said Rodney replied before rear-ending a Q8, causing it to hit a curb and roll over.

Brendan sideswipes a Carrera, causing it to collide head on with a 2032 Corvette. Riley fires an EMP at a Golf GTI, frying its system and causing it to crash into a light post.

Simeon sideswipes an S600, causing it to t-bone a 2031 Bentley Bentayga. Maynard

deploys a spike strip, shredding the tires of a Q8 and causing it to t-bone a Mercedes-Benz X-Class.

"That's the last of them," said Maynard.

Several GSG 9 officers driving 2039 Porsche Macans, 2040 Mercedes-Benz Vitos, 2039 Mercedes-Benz LAPV Enoks, and 2040 Volkswagen Tiguan engage in the pursuit.

"Who the hell are these people?" Ruby asked.

"It's GSG 9, and we're gonna deal with these assholes like how we dealt with the regular cops," Damien replied before deploying a spike strip, shredding the tires of a Macan and causing it to collide head on with a 2032 BMW X5.

Alice sideswipes a Tiguan, causing it to crash into the rear of a Ferrari FF. Eleanor fires an EMP at a Vito, frying its system and causing it to t-bone a Ferrari Portofino. Ruby deploys a spike strip, shredding the tires of an LAPV Enok and causing it to collide head on with a Google Street View Car. Eddie rear ends a Tiguan, causing it to lose control and crash into a light post. Marilyn accelerates towards the rear right wheel of a Macan, causing it to roll over.

"How many of these guys are there?" Chester asked before sideswiping an LAPV Enok, causing it to hit a curb and roll over.

"I don't know, but we gotta take them down one way or another!" Priscilla replied before rear-ending a Vito, causing it to crash into the rear of a 2024 GMC Hummer EV SUV.

Sean deploys a spike strip, shredding the tires of a Macan and causing it to collide head on with a Lamborghini Urus. Darrell fires an EMP at a Tiguan, frying its system and causing it to crash into a light post. Kang sideswipes an LAPV Enok, causing it to t-bone a Tesla Model Y. Charlie deploys a spike strip, shredding the tires of a Vito and causing

it to crash into the rear of a 2034 Toyota Hilux. Tony sideswipes a Macan, causing it to hit a curb and roll over. Burton accelerates towards the rear left wheel of a Tiguan, causing it to roll over. A GSG 9 officer driving a Vito pulls up next to Gabriella.

"Dammit, there's one right next to us!" Donita shouted.

"I'll take care of this!" Gabriella replied before bringing out her M9 and shooting the tire off of the front left wheel of the van and causing it to roll over.

Gavin hits the left side of the rear bumper of an LAPV Enok, causing it to spin out and roll over. Chelsea sideswipes a Macan, causing it to hit a curb and roll over. Becky rear-ends a Vito, causing it to lose control and collide head-on with a 2035 Porsche Cayenne. Andreas fires an EMP at an LAPV Enok, frying its system and causing it to crash into a light post. Malakai deploys a spike strip, shredding the tires of a Tiguan and causing it to t-bone a 2037 BMW 3-Series. Krist rear-ends a Tiguan, causing it to hit a curb and roll over.

"This is probably the only time I'll ever go up against GSG 9," said Rodney before sideswiping a Vito, causing it to crash into the rear of a Mercedes-Benz X-Class.

Brendan rear-ends an LAPV Enok, causing it to t-bone a Mercedes-Benz Sprinter. Riley hits the left side of the rear bumper of a Tiguan, causing it to spin out and roll over.

Simeon fires an EMP at a Vito, frying its system and causing it to crash into the rear of a 2035 Kia Carnival. Maynard deploys a spike strip, shredding the tires of a Macan and causing it to crash into the rear of a Ferrari FF. Atticus rear-ends an LAPV Enok, causing it to lose control and collide head-on with a 2036 Mercedes-Benz G63. Mandy sideswipes a Vito, causing it to hit a curb and roll over. Magra fires an EMP at a Tiguan, frying its system and causing it to t-bone a 2028 Mustang GT. Pandora deploys a spike

strip, shredding the tires of an LAPV Enok and causing it to crash into the rear of a 2034 Corvette. Fraser sideswipes a Macan, causing it to hit a curb and roll over.

"That was the last one," said Fraser.

"Great work, everyone! Now let's get the hell outta here," Damien replied.

The Blacklist return to the Stuttgart Airport and drive up to Blacklist One. The cargo door opens up, and each team member drives their car into the cargo bay. They exit the cars and walk to the cabin before sitting down and strapping themselves in. The plane's crew secure the cars into place before sitting down and strapping themselves in. Rob and his co-pilot get seated.

"Time to head back to Los Angeles," said Rob.

Blacklist One is taxied out of the hangar and onto the runway before taking off. The landing gear is retracted.

14 hours later.

Blacklist One returns to the Los Angeles International Airport. The landing gear is deployed, and the jet lands onto the runway. The jet is taxied into Ray's hangar. The Blacklist walk to the cargo bay and get into their cars. The cargo door opens up, and The Blacklist drive their cars out of the cargo bay before heading to the streets. They soon arrive at Ray's mansion, park their cars in the garage, and walk to the planning room.

"Welcome back, everyone! I see that everyone made it back," said Ray as he gives each member of The Blacklist a check for \$50,000.

The Blacklist put their checks in their pockets.

"Yeah, and we got the car," Donita replied before tossing the key to Ray.

"Thank you," said Ray as he caught the key. "My mechanics are going to modify that car so we can ship it to your house."

Gabriella walks up to Rodney.

"Rodney, are you gonna tell us some stuff about Rudolph's Revenge?" Gabriella asked.

"Last time, I told everyone about this part where I kill three mercenaries with an icicle.

After that, I bring out a P30L and use it to destroy a radio that's playing that horrible song called 'Wonderful Christmastime'. I like Paul McCartney as much as the next person, but even I think that song is terrible. Thankfully, that song will NOT be included on the soundtrack. The new Angels of Death song will be on it though," Rodney replied.

"Is there anything else that happens in the movie?" Donita asked.

"There is this one scene where I leap off of a ledge and grab onto the nose of an F-35B that's in VTOL mode and being piloted by Cupid. After that, I bring out the P30L and triple tap him before leaping off the jet before it crashes and explodes. Of course, I'm gonna do my own stunts in the movie," Rodney replied.

"That movie sounds like it's gonna be intense, and I'm looking forward to seeing it!" said Eddie.

"Yeah, and I'm heading back to Denver in a couple days so we can continue filming," Rodney replied before turning to Ray, "Ray do you think you might be able to get my co-star, Claire Endino, to join this team someday?"

"I'll see what I can do," Ray replied.

"Who's Claire Endino?" Riley asked.

"She's my co-star in Rudolph's Revenge, and she's playing the role of Clarice in the film. She helps me fight against the mercenaries in the film in addition to helping to take out those other reindeer. I actually met her on the set. Michael Racer drafted her since she too is very talented and has also starred in short films on YouTube in addition to residing here in LA. She is a very skilled driver and knows a thing or two about kicking ass. In fact, she took some martial arts classes throughout middle school and high school from what I've been told," Rodney replied after turning to Riley.

"What kind of music does she like?" Sean asked.

"She's mostly into punk rock, but she also enjoys new wave, synth pop, nu metal, gothic rock, and grunge. In fact, her favorite band is L7, which I think is really awesome," Rodney replied.

"Her taste in music is very diverse, and I like that," said Fraser.

"I think it'd be pretty cool to have her on the team," Damien said to Rodney before turning to Ray, "Ray be sure to let us know if anything else comes up."

"I'll be sure to let you all know," Ray replied.

"Chester, do you think you can give me a paw massage when we get back?" Priscilla asked.

"Yeah, I can do that," Chester replied.

Everyone except for Ray walks to the garage, gets in their cars, and heads out.
