

My Feelings

I use to be Angry
I use to be Hateful
I use to be Numb

Then i met You
The one that ignited My heart Once again
After years of being emotionally broken

You ignited something that once i thought was dead

I understand and accept All there is about you

Loving you i just can't stop
Hearing you say you liked me back that gave me hope
Nothing gave me hope like you do

When i talk to you my heart races
My love for you i can't deny ever
No matter what I'll love you

Your the one that revived me
The one i love
Your my everything
