Bio: Born and raised in Kalos before moving to Unova, Forest is a calm anthro Skiddo who is a country boy. As the second son of Gloria the Gogoat and Sawyer the Sawsbuck, Forest loves to laze his days away under the trees. Having grown up on his fathers stories of Unova, he views it as a land where nature and technology live in harmony. When he turned eighteen, he left the land of his birth and headed to Unova to find inspiration and wander the land of his father's birth. Before leaving, he is given a gold band by his mother and a writing journal by his father. After arriving in Unova, he put the band on his right horn and felt tingly. Looking at his hands, He noticed they had lost their digits and was staring at a cloven hoof before the effect wore off and returned it to normal. It seems the band was filled with magic to turn him feral and he smiled. Using the magic of the band and writing what he sees down after it wears off, Forest uses it to travel around Unova to write stories based on his experiences as a feral pokemon.
